Community Service Project

- **Title** : Financial Literacy and employability skills foundation course
- **Details** : The Community service project deals with identification of the primary school (ZPHS, Chinchowk), awareness program regarding art crafts, word anthyakhari, games, rhymes, puzzles. Identification of problems in school i.e., drinking water, cleanliness, midday meals.

Project

- **Title** : Comparison of compressive strength mortar cubes manufactured with plastic waste using 3D printing machine and conventional method.
- **Details** : Mortar cubes made with 3D printing and plastic waste are usually weaker because of gaps in the layers, while those made by traditional methods are stronger due to better mixing and compacting. 3D printing offers design flexibility and less waste, but traditional methods give better strength. Overall, traditional methods are stronger, but 3D printing is good for eco-friendly solutions
